

Foscott's Friends

Photo Guide

Good quality photos are key to achieving the best caricature likeness.

Images taken from all angles at 'dog eye' level, are most suitable.

The photos below give an indication of the angles I am ideally looking for.

Please include any particular stance, expression or markings you would like to be featured.

Please try to avoid tight close-ups that distort the features.

FULL PROFILE

(standing & sitting) - show length of muzzle, length of tail & body shape

Front, rear & over the back - include any markings on back of neck & chest

FACE DETAIL - sides, front & top
